

# ACT 1039

## DYSLEXIA SCREENING AND INTERVENTION

Act 1039 of 2017 requires the following:

Before July 15<sup>th</sup>, a district shall report on the website or in writing to the parents of each student the following information: the dyslexia intervention programs used during the previous school year, the number of students who received dyslexia intervention, and the total number of students identified with dyslexia.

As of June 1, 2018, there are 88 students in the Cabot School District who have presented a diagnosis of dyslexia or have been identified as exhibiting characteristics of dyslexia.

During the 2017-2018 school year, 88 students were provided dyslexia intervention by the Cabot School District. The district utilizes the Barton Reading and Spelling System and Brainspring Phonics First for dyslexia intervention.
