Alternative Methods of Instruction

Name: _____ Date: _____

1st Grade AMI Work #4

Your child will have 5 days to complete and return this to his/her teacher to get credit for the day. If you need more time, please let the teacher know.

Please read the following passage with a parent/guardian and answer the questions.

Days of the Week

A week is made up of days. There are seven days in one week.

In the United States, Sunday is the first day of the week. Monday is the second day. Tuesday is the third day. Wednesday is the fourth day. Thursday is the fifth day. Friday is the sixth day. Saturday is the last day of the week.

Saturday and Sunday make up the weekend. The weekend starts Friday night. It ends Sunday night. Kids don't go to school on the weekend. They may play. They may read. They may do homework. They usually go back to school on Monday.

What do you like to do on the weekends?
