

Cabot Public Schools School Improvement Status

All Schools are required to meet Annual Measurable Objectives, or yearly targets, designed to reduce the proficiency, growth and graduation gaps. Students are classified in two main categories: All Students and Targeted Achievement Gap Group (TAGG), which includes students in one or more of the Economically Disadvantaged, English Language Learners, and Students with Disabilities subgroups.

Test scores from 2011 were used to determine the proficiency, growth and graduation gap (based on 2010 data) to establish the targets for each school. Schools are expected to reduce by half the gap by the end of six years.

Schools that meet their AMOs for both groups in either performance or growth for two consecutive years are classified as Achieving. High schools also must meet the performance and graduation rate goals.

Schools that do not meet their annual targets are classified as Needs Improvement Schools.

Needs Improvement Focus designation was give to schools that showed the largest three-year gap between Non-TAGG student scores and TAGG student scores.

Interventions in Place to Remove Schools from School Improvement

The district and individual school's ACSIP describes interventions for all students who are not proficient.

These interventions are done in an effort to remove the district or school from Needs Improvement status.

- * Academic Improvement Plans (AIPs) for any student who is not proficient
- * Intensive Reading Improvement Plans (IRIs Grades K-2)
- * Response to Intervention (RTI)
- * Target Testing and Formative Assessments
- * Professional Learning Communities
- * Extended Learning Opportunities
- * Incorporating Technology to Enrich Instruction
- * Curriculum Alignment
- * Comprehensive Literacy Program
- * Standards-Based Math Programs
