Alternative Methods of Instruction

Name: _____ Date: _____

Kindergarten AMI Work #8

Your child will have 5 days to complete and return this to his/her teacher to get credit for the day. If you need more time, please let the teacher know.

THEME: Once Upon a Farm

Please have a parent/guardian read the following passage to you, again.

A Farm

What is a farm? A farm is a place where people grow plants to use. Plants grown on a farm are called crops. Crops can be vegetables. They can be fruits. They can also be grains, like rice.

Farms can also raise animals.

Many farms raise chickens. Farmers get eggs from them! Cows can also be raised on farms. People get milk from these cows.

It takes a lot of space to grow crops and raise animals. So farms are often in places where there aren't too many people. In the U.S.A., most farms are in the middle of the country.
